Promoting Healthy Tips on Relocation

5 Steps to a Stress-Free Relocation

1) **Manage Stress with Preparations:**

Change, even good change is stressful. Be ready for unexpected challenges. Give yourself and your Family slack, know that people react to change differently.

2) **Accept your Move as a Challenge:**

Face the move with determination and creativity. Ask for help when needed research helpful info about your new area before you arrive.

3) **Attack Tasks – with To-Do Lists:**

The number of task to organize a move can be overwhelming. Lists help keep track of your progress and can help keep your head above water.

4) **Keep a Positive Attitude:**

Stress and multiple tasks will creep in, but try not to let it get you down. Keep a pic of your new home and talk about all the new opportunities with Family and Friends.

5) **Make Time to Relax:**

Moving is a team effort and can be hard. Take time for yourself and Family to unwind. Take leave to get accustomed to your new surrounding and explore the new sights. Go on a hike, visit LORA, drive through the Ozarks. Recharge your battery and you'll perform better at your new job.
