## GLWACH

### For Awareness

- **Harper Medical Facility's primary mission is for COVID Screening and testing**
  - This includes testing for those considered close contacts or who have had occupational exposure.
  - Individuals experiencing symptoms and requiring medical evaluation are encouraged to go their primary care physician, the Acute Minor Illness Clinic (AMIC), or emergency department, as applicable.

### Challenges/Initiatives

- **COVID Vaccination continues**
  - Currently vaccinating Phase 1 individuals, looking to move into Phase 2 (which includes the healthy population) in February 2021.
  - Phase 2 Prioritization:
    - Workforce (key and essential)
    - Workforce (all others, MIL and CIV)
    - Dependents
    - Beneficiaries
    - Workforce Contractors
  - We expect to continue to receive vaccination in order to complete both doses for all of those who volunteer to receive the vaccine.

### Community Interest

- GLWACH offers primary care (face to face and virtual) and specialty outpatient care services in the following:
 

- Family Practice	-Orthopedics/Podiatry
- Internal Medicine -OB/GYN	
- Pediatrics	-General Surgery
- Behavioral Health	-Army Wellness Center
- Optometry	
- Audiology	
- Physical Therapy	
- Occupational Therapy	
- Chiropractic Services	
- The Acute Minor Illness Clinic is available 1000-2200, 7 days a week for acute illnesses. Emergency Department and In-Patient services are available 24/7.

### In the Works

- **Transition to new Electronic Health Record (MHS Genesis)**
  - Go Live date is 24 APR 2021
  - Roll out will decrease appointment availability by 40% for 30 days after Go-Live.
  - Expected streamlined documentation and improved patient experience.

## COVID-19 VACCINES

Vaccines are voluntary, not mandatory

### COVID-19 RISKS:

To you:

- Severe illness or death
- Life-threatening complications
- Long-term health effects like respiratory, cognitive and heart issues
- Potential to be re-infected

To community:

- Continued protective posture (social distancing, masks, isolation, quarantine, etc.)
- High risk of infecting others
- Effects of COVID-19 vary person-to-person
- Sustained disruption to life activities

To healthcare system:

- Fewer resources for routine care
- Stress on hospitals
- Limits medical care treatment availability
- Greater demand for mental health support

### BENEFITS OF VACCINE:

It protects:

- Vaccines are historically the most effective tool to stop pandemics
- Creates antibodies (immune response) without having virus
- Prevents serious illness if infected
- Protects you and those around you
- Helps build community immunity and resilience

It's safe:

- Clinically tested
- Verified by the FDA
- Emergency Use Authorization (EUA) is a scientifically accepted process
- Minimal side effects (e.g. soreness at injection site, fever, tiredness, aches)
- Allergic reactions low (11 reactions per million vaccines)

It's effective:

- Works with immune system to fight virus if exposed
- Reduces likelihood of getting sick
- Will not make you sick
- Does not contain live virus
- 95% effective at preventing the disease

Learn more about the Vaccines at [www.cdc.gov/coronavirus/](https://www.cdc.gov/coronavirus/)

## DES

### For Awareness

- **Super Bowl**
  - Social event, drinking
- **Winter Weather**
  - Change in road status

**Green:** No safety threat to the public due to weather conditions. Proceed with normal operations.

**Amber:** Difficult to hazardous road conditions. Drivers must slow to 10 mph below the posted speed limit to maintain traction and a safe stopping distance. Roads are icy or snow packed, but clearing operations are making roads passable.

**Red:** Most intersections present difficult or no stopping conditions. Weather forecast calls for continued precipitation with below freezing temperatures. Clearing operations have not kept priority number one roads easily passable. Black ice or ice sheeting has made passage hazardous. Safe speed limit is 10 to 15 mph regardless of posted limit, driving above 10 to 15 mph causes vehicles to lose traction and safe stopping distances are significantly increased.

**Black:** Restriction of all vehicular traffic on Fort Leonard Wood. Emergency vehicles are unrestricted (military police, ambulances, fire trucks, DPW, SNAIR support team mission essential vehicles). Non-emergency vehicles must obtain approval from their authorized delegated officer.

## ICE Comments

### 1) Home Based Business Process

- FY20 was a transioning year for the Home Based Business from the Housing Division to DFMWR with Garrison remaining the approving official.
- The Army has a new standardized HBB application that includes obtaining approval from installation agencies like Housing, Balfour Beatty, AAFES, JAG before the application goes for final approval.
- The development and the year were not without challenges – however a policy has been written to streamline the process.
- The HBB owner is responsible for obtaining the necessary permissions, applicable licenses, and liability insurance. The HBB owner is also responsible for any damages to third parties arising from the conduct of the business.
